

# MR. BADWRENCH

## Up Jumped the Devil

Featuring hot rod artist and Car Kustomiser **Dan Collins**, **Cramps** bassist **Chopper Franklin** and the **Rocketz'** **Tony "Slash" Redhorse**, **Mr. Badwrench** riles up every ounce of adrenaline flowing through your body, filling your soul with a restlessness that hasn't been achieved since you first heard the crazed howls of Jerry Lee Lewis or witnessed the psychotic antics of The Cramps. Boozed up, fuel injected, wearing their sins on their sleeves, their crimes inscribed into their flesh, these boys mean business-they mean to take your soul.

"Mr. Badwrench...are sure to pull out all the stops and maybe even a bodybag to entertain you." - **L.A. Times**

"..Like a juggernaut barreling through the houses of the Holy...Mr. Badwrench definately has succeeded in digging out their own corner of the psychobilly graveyard with a unique sound and memorable songs that'll stick to your ribs." - **Rock N Roll Purgatory**

"Mr. Badwrench takes us on a trailer park cruise into the trashy, greasy, sleazy, cigarette rolled up their sleeve tour of American greaser rock. A nostalgic vision of what would've been if Pony Boy DIDN'T stay golden. The music is a more punk stray cat strut." - **Deathrock.com**
